LET OUR EXPERIENCE BENEFIT YOU

R.A. Rezzelle provides professional mechanical (2D and 3D) design, electrical design, drafting, documentation management/control, and AutoCAD training and customization, to a variety of industries. Established in 1982, we have served FORTUNE 100 industries, engineering/architectural firms, and construction management companies. Using the latest in computer-aided design and drafting (CADD) and digital technology, we are dedicated to delivering a quality product on time and within budget.

ACCURACY Rezzelle

Our mechanical/electrical designers and CADD operators provide a diverse base of experience and technological capabilities. Our team of professionals all work together to help you achieve your goals and ultimately your success.

As a technical support firm, we understand your staffing needs. We can provide your company with experienced personnel which allows you to meet new challenges and tight deadlines without making costly investments.

TECHINICAL AND GRAPHIC SERVICES

R.A. Rezzelle has a combination of experience in technical design and CADD support for industrial, commercial and residential projects. We have an in-depth background providing various services to the pulp/paper and chemical industries with concept development through all phases of the design process.

DRAFTING Rezzelle

We can provide your engineering department with project management, mechanical designers, electrical designers, field technicians, and CADD operators at your company's location or off-site.

GRAPHICS Rezzelle

Our many services include detailing, field verification, as-built documentation, drawing conversions, illustrations, and documentation management and control.

Digital video production is also available using the most modern digital cameras and Non Linear Editors (NLE) on the market.

CUSTOM COMPUTER TRAINING

We provide customized AutoCAD training for both individuals and corporations. Our training services are counted among the very best in the industry with experienced instructors,

training, one-on-one assistance, flexible class schedules, on-site training, and customized training material. Our instructors have over 15 years of AutoCAD experience, as well as an extensive background in the industries.

OUR COMMITMENT

Our team of professionals will meet your challenge, whether you need additional design help to get through a peak period, drawing conversions, digital video, training or programming. We give the very best when it comes to problem solving. Our business is to provide you with the finest technical support services available.
